OnDemand Revenue Performance Analytics™
Complete on time performance visibility in high definition

| Payer Performance | Claims Performance | Cash Collections Performance | Denials Performance |

Healthcare organizations that will thrive in today's economy are those who have clear and immediate insight into provider payer mix and past performance – having what some might consider an uncanny ability to predict future revenue cycle performance. It's within your sights today. All organizations can harness this power through PowerHealth OnDemand's Revenue Performance Analytics and its robust payer performance metrics, scorecards, and dynamic analysis. OnDemand delivers performance management availability 24/7 through our intuitive and interactive analytics platform that can be implemented in days - not months or years, in order for you to achieve goals in less time, with absolute control.

Beyond reporting, OnDemand's Guided Intelligence™ provides organized answers you need for true performance improvement

PowerHealth OnDemand®'s unique Guided Intelligence™ effectively streamlines data and information processes for executives, management and analysts that will help turn this data into actionable intelligence throughout your enterprise. Guided Intelligence™ utilizes predictive analytics to aggregate data from disparate sources and then provides answers you need to achieve breakthrough performance throughout your operations.

Transparency of your payer portfolio

Managing cash flows from your payers just got easier. . With PowerHealth's Revenue Performance Analytics, your organization is immediately aware of daily performance of payer contracts, claims, and denials process. Payer Performance Analytics captures and manipulates data so that senior management have a comprehensive snapshot of all core performance metrics. Like its complementary modules, data capture is automated, systematic, and virtually on demand. The results include:

* Overall reduction in denials and underpayments
* Ongoing management of payer collections and performance
* Opportunity to create more favorably-negotiated contracts with payers
* An increase in net revenues

## Predictable revenue means more proactive decision-making

Let Revenue Performance Analytics help your organization take the next steps toward optimization and efficiency. This module will help you:

• Identify and analyze underpayment trends by payer, contract, facility, DRG, patient type, and reason code
• Benchmark payer performance based on volumes, revenue, case mix, time-to-pay, and denials

- Establish payer report cards that aggregate all relevant information for contract negotiations
- Create prioritized work lists for follow-up activity by payer
- Perform with on demand intelligence through integration with RAC reporting

With OnDemand Revenue Performance Analytics, you gain:

- Immediate visibility into your entire payer portfolio for cash management and managed care negotiations

- Control over unnecessary or runaway denials that lead to revenue leakage and cash collection issues

- Established tracking of statutory reporting and key performance indicators (KPIs) aligned to operational metrics and goals.

- User self-service reporting and access to significantly reduce costs.

- Visual interpretations of performance management through dynamic dashboards, intuitive analysis grids, and access to ultimate detail

- User self-service and automated reporting and access from virtually anywhere to significantly reduce costs
